SUMMARY

Senior Frontend Engineer specializing in React & Next.js architecture for international clients. Boosted Lighthouse scores from ~60 to 90+ and cut page load times by ~35% through strategic performance optimization. Experienced frontend instructor who has guided 100+ students from fundamentals to real-world project delivery. Passionate about scalable architecture, clean code, and end-to-end feature ownership.

WORK EXPERIENCE

Frontend Instructor — Registan School

Tashkent, Uzbekistan | 2025 – Present

- Teaching modern frontend development covering React, JavaScript, and UI architecture best practices.
- Designing structured curricula that take students from foundational HTML/CSS to production-ready React apps.
- Conducting code reviews, providing architectural feedback, and enforcing real-world development standards.
- Helping students build portfolio projects using Git, GitHub, and professional team workflows.

Senior Frontend Engineer — Freelance (EU Clients)

Poland & Sweden (Remote) | 2023 – 2025

- Owned frontend features end-to-end, from requirements gathering to production release.
- Designed scalable, feature-based React & Next.js architecture for long-term maintainability.
- Improved page load performance by ~35% via code splitting, image optimization, and component refactoring.
- Increased Lighthouse performance score from ~60–65 to 90+ across key pages.
- Built reusable UI component library, reducing duplicated codebase by ~40%.
- Delivered SEO-optimized, mobile-first interfaces for production applications.
- Collaborated with international designers and backend teams in fully remote environments.

Senior Frontend Engineer — CarPlus (Remote)

England | Mar 2025 – Jul 2025

- Led frontend architecture and module ownership across 4+ core product areas.
- Implemented pixel-perfect, responsive UI with React, Next.js, and SCSS in close collaboration with designers.
- Reduced rendering bottlenecks and improved mobile usability — cutting First Contentful Paint by ~25%.
- Introduced component-driven development standards that improved team consistency and review speed.
- Actively contributed to SEO improvements, resulting in better page indexing and organic reach.

Frontend Mentor — Independent

Remote | 2024 – Present

- Mentored 100+ students across various platforms, guiding them from fundamentals to real-world project delivery.
- Reviewed student code, provided architectural feedback, and enforced industry best practices.
- Conducted workshops on component design, performance optimization, and Git/GitHub workflows.

Frontend Engineer — OKS Technologies

Tashkent | Feb 2022 – Jun 2022

- Developed reusable UI components using React and Redux Toolkit.
- Integrated REST APIs for dynamic content rendering across key application modules.
- Collaborated with backend developers on scalable frontend solutions.
- Participated in production deployments and feature maintenance cycles.

PROJECTS

Tariff Gift Approval System

Next.js · Supabase · Google OAuth · Telegram Bot · Gmail SMTP · Vercel

- Built a dual-role auth system: Google OAuth for users, email/password for admins.
- Implemented Row-Level Security (RLS) in Supabase for strict data access control.

- • Integrated Telegram Bot + Gmail SMTP for real-time approval/rejection notifications.
- • Deployed on Vercel with full CI/CD pipeline.

24/7 Towy — Towing Company Website

React · SCSS · Vercel

- • Built a fully responsive, component-based frontend for a towing service company.
- • Structured SCSS architecture with variables, mixins, and modular stylesheets.
- • Optimized for mobile-first design and fast load performance.

User Management App

Next.js · PostgreSQL · Express · Supabase

- • Full-stack user management system with role-based access control.
- • Built REST API with Express and PostgreSQL, frontend with Next.js.

KEY TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript (ES6+)
Styling:	SCSS, Tailwind CSS, CSS Modules
State:	Redux Toolkit, Zustand, React Query
Backend:	Supabase, Express.js, PostgreSQL, REST API, Axios
Auth:	Google OAuth, JWT, Supabase Auth, Row-Level Security (RLS)
Tools:	Git, GitHub, Vercel, Render, Figma, Telegram Bot API, Gmail SMTP
Other:	Performance Optimization, SEO, Mobile-First Design, Remote Collaboration

EDUCATION

Bachelor of Science in Computer Science (In Progress)

University of Science and Technology

CERTIFICATIONS

- • React Developer Certificate — Udemy
- • Git & GitHub Advanced Course — PDP IT Academy

LANGUAGES

Uzbek — Native English — Intermediate Russian — Intermediate
